

Bringing *More Purpose* Into the Employee Experience

Infuse more purpose into your employee experience while delivering greater business impact with the Benevity-Workday certified integration. This is the first integration of its kind, making it possible for Workday clients to seamlessly and securely connect user and payroll data from Workday HCM with Benevity's award-winning employee engagement software, Spark.

Now you can easily drive more participation and impact by:

- Offering a simple payroll giving experience
- Providing employees with targeted content based on user data like location and department
- Accessing richer reporting to gain insights you can use to tailor your programs based on your employees' interests and passions
- Bringing people and program data together to drive more employee engagement and pride, and attract top talent

Did you know?

You can add a Worklet so your employees can access Spark right from their Workday dashboards.

Seamless payroll integration

By automating the payroll donation process, employees can manage their own recurring donations in Spark, with no extra work for you. The integration also supports multiple payroll schedules for different groups.

Enrich the employee experience

Target company content to employees based on user data like location, department or job level, and access richer reporting so you can tailor your program to employees' interests and passions.

Secure data transfer

The Benevity-Workday integration automates user and payroll data transfer and minimizes the exposure of personal information through a secure, controlled system.

Streamlined implementation and maintenance

Benevity manages the implementation and maintains the integration, reducing the need for manual work from your CSR, HR, Payroll and IT teams.

Daily data synchronization

User profiles sync daily, automatically ensuring only eligible users are part of your program.

Single destination

Easily create a Worklet for Spark so employees can access your giving program from the Workday dashboard.
