

Drive Engagement & Impact with *Donation Matching*

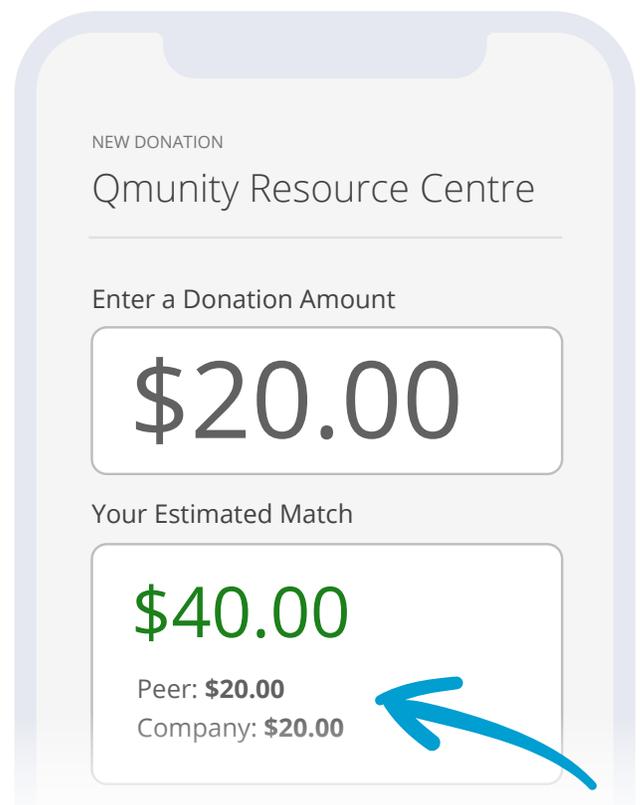

Build meaningful bonds with your people

Go From Perks to *Purpose*

Today's socially-conscious workforce is hungry for meaning and purpose — beyond the office perks. Donation matching is a powerful way to build deeper bonds with your people, while also driving greater engagement and impact in your program.

When you empower your people to donate to a cause of their choosing and amplify their impact with a match, it shows them you care about what they care about.

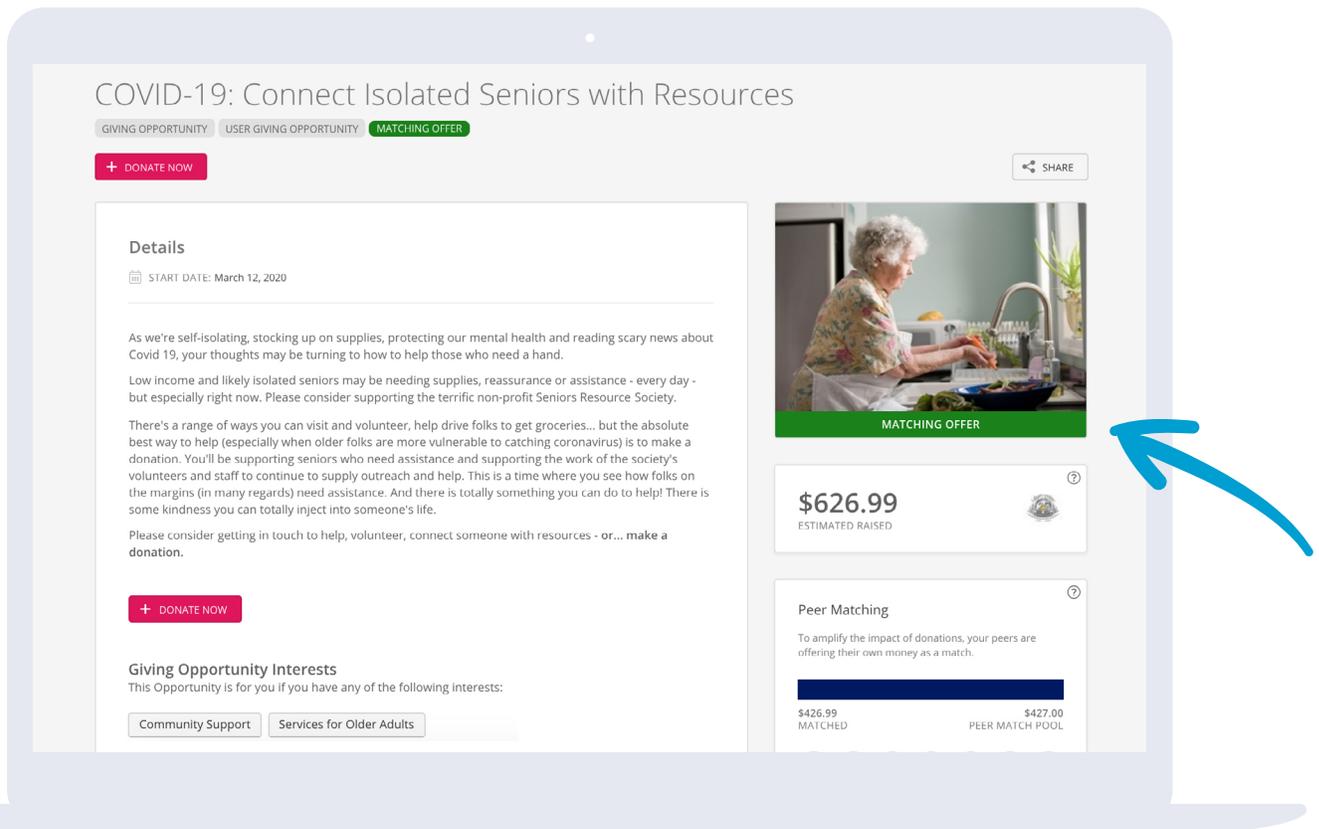

Spark's flexible and automated matching capabilities makes it easy for you to support your employees passions, while also driving more support for your company's cause pillars, partners, and special campaigns.

80%

Companies with matching see 80% higher participation in their giving program than those without.

*BCCCC Community Involvement Study

Add incentives to boost engagement

Matching is proven to drive more engagement and impact! In fact, employees with matching available donate an average 111% more of their own money, compared to those who don't.

Offer flexible rewards

With flexible matching, you can increase match rates for your cause pillars or promote a special match rate for specific campaigns or charity partners (e.g. 100% match to any charity, 150% match to a pillar charity or a disaster relief appeal).

Empower peer-to-peer matching

In addition to company matching, employees can use their own funds to match their coworkers' donations to a cause they care about it. We call it Peer Matching — and it's a powerhouse for fostering connection, building culture, and driving even more impact!

Work with any budget

You can control whose donations are matched and at what rate based on things like location and employee status or level (or even board members), and Benevity's

robust reporting allows you to stay on top of how much budget you have left. Use Peer Matching to boost impact without using additional corporate budget!

Make less work

Real-time matching in Spark eliminates the need to review and approve match requests. And it's great for nonprofits, too, because they no longer need to reconcile donations and matches and all funds come in one aggregated monthly payment that saves them time and money.

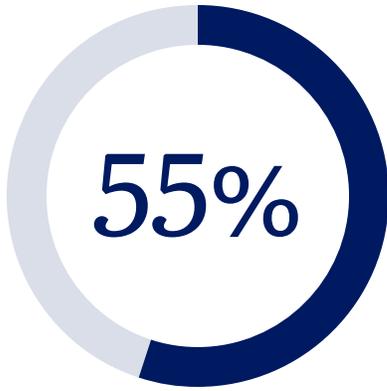

Engage the public

You can also involve your customers, partners, vendors and others (even employee's family and friends!) by matching their donations through Benevity's Community Impact Portal — a web portal that can be branded specifically to you — for even greater community impact.

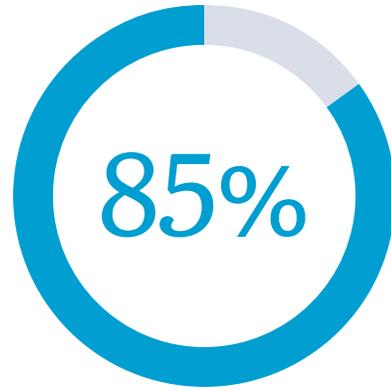

Select eligible charities

Spark's robust filtering ensures only the charities and nonprofits that meet your program guidelines are eligible to receive a match. You can filter by cause category or even by individual charity.

 Did you know?

Clients with matching have on average 55% higher average user donation amount compared to those that don't.

of Benevity clients offer a matching program.

Match “external” donations

If your employees make any donations outside of Spark, they can upload their receipts and you can either approve matches manually or choose to have them approved automatically, in real time.

The image displays two screenshots of the Benevity platform. The top screenshot is a laptop view of the 'Request a Match' web page. The page has a dark blue navigation bar with links: 'Browse Giving Opportunities', 'Explore Causes', 'International Projects', 'Create a Giving Opportunity', and 'Request a Match'. The main heading is 'Request a Match', followed by a sub-heading: 'Requesting a match for a donation that you previously made outside this tool is quick and easy! Looking to make a new donation? Search for a cause you love or browse our featured content.' Below this is a form with the following sections: 'Find An Eligible Cause' with a search bar (placeholder: 'No cause attached') and a 'Filter by Country/Location' dropdown set to 'Canada'; 'Donation Type' with radio buttons for 'Money' (selected) and 'In-Kind'; and 'Donation Details' with an 'Original Donation Currency*' dropdown set to 'CAD'. A blue arrow points to the 'Request a Match' heading. The bottom screenshot is a mobile app interface. At the top is a 'Make a Donation' button. Below it is a 'QUICK ACTIONS' section with two icons: 'Request a Match' (a heart with a hand) and 'Track Volunteer Time' (a clock). A blue arrow points to the 'Request a Match' icon. At the bottom is a navigation bar with 'Home', 'Discover', and 'More' icons.

A great matching program *boosts impact* for everyone
